Help us save lives and keep families together

We are recruiting voluntary positions to join our Board of Trustees

Over 250,000 people in the UK have inherited high cholesterol or other inherited blood fat conditions, most are living without the knowledge they could have an early heart or stroke. Only around 25,000 are identified, including children. We aim to double this to 50,000 by 2023. Join our Board of Trustees, who govern and lead the charity, and help us achieve this.

We are a growing national charity providing expert support, education and influence to people with high cholesterol, their families and health care professionals.

We are looking for two Trustees who will help provide strategy and guide our Fundraising and Finance teams:

- a corporate fundraiser, ideally with a successful track record in corporate fundraising and partnerships. Knowledge across the mix of fundraising would also be useful
- finance, ideal for someone with a head for figures and maybe a finance or accounting background

We are seeking people who are keen to help us shape the future of the charity and are motivated to help us make a difference to peoples lives.

The role :

- Is an unpaid voluntary role – out of pocket reasonable expenses will be covered
- You must be able to commit to around 6 days per year (4 Board meetings, 2 in London, 1 in Maidenhead, Berkshire and 1 at our Annual Conference location) and usually 1 strategic planning day and some other ad hoc time.

We welcome applications from all ages and backgrounds. Whether you are an experienced Trustee or wanting to take your first step at Board level, we would love to hear from you.

Please send your CV and a cover letter to XXXX. For an informal chat please call XXXX on XXXX.

Deadline: 30 June 2018
